

1.18.2B

March 29, 2022

CHANGELOG

CHANGED:

LANG

- Langpack no longer required. The datapack will use dedicated versions for languages now, that way, there'll only be one pack to mess with for any language.
Both packs are cross compatible & progress will be saved if you decide to change languages.

FIXED:

ADVANCEMENTS

- Cow Tipper (EN: Corrected a typo "Havest", fixed in version 1.18.2)
- On a Rail (FR: Corrected a typo "Sûr")
